SUMMARY

UI / Front-End Developer with 2+ years of experience building responsive, production-ready websites and web interfaces using HTML5, CSS3, JavaScript, Bootstrap, jQuery, and React.js. Experienced in developing 50+ responsive websites across business, healthcare, portfolio, and eCommerce projects. Strong in responsive UI development, reusable components, cross-browser compatibility, mobile-first design, and integrating frontend interfaces with PHP/Laravel backends.

WORK EXPERIENCE

FINDWAY DIGITAL – Madurai

Front-End Developer

Apr 2024 – Apr 2026

- Developed and maintained 50+ responsive websites across business, healthcare, portfolio, and eCommerce domains using HTML5, CSS3, JavaScript, Bootstrap, and jQuery.
- Converted UI designs and client requirements into responsive, reusable frontend components for desktop, tablet, and mobile.
- Collaborated with PHP and Laravel developers to integrate frontend interfaces with backend functionality and APIs.
- Implemented mobile-first layouts, cross-browser compatibility, animations, carousels, forms, modals, and interactive UI components.
- Optimized page layouts and frontend code for performance, usability, responsiveness, and maintainability.

CODER PROFESSION – Tirunelveli

React Developer Intern

Sept 2023 – Feb 2024

- Developed reusable and responsive React.js components for eCommerce interfaces.
- Implemented product listings, product details, interactive UI components, and responsive layouts.
- Used React Hooks, component-based architecture, JavaScript ES6+, HTML5, and CSS3.
- Debugged UI and functionality issues while collaborating with senior developers.
